Tooling Solutions

Innovation

Innovative Solutions

Palbit offer strategic, value-driven **solutions** which provide a clear **competitive advantage to our clients.**

We provide innovative thinking for creative problem solving of complex technical issues.

Palbit Tech Center

Palbit Tech Center allows us to provide our customers with the ultimate technology for tool testing.

Our **primary concern** is enhance our customers productivity by applying **qualified technicians, research and continuous developments and cutting-edge technology.**

Direct commitment with our customers (both distribution partners and end users).

Technological & Process Innovation

Latest Technology

- Development of **new grades**
- New **CVD MT** coatings technology
- **Multilayer diamond** coatings
- Nanocomposite **PVD coatings** with supernitriles
- **Multi-axial pressing** system
- Direct press with **very close tolerances**
- Accurated **HIP sintering** process
- **Surface treatment** technologies

Products Innovation

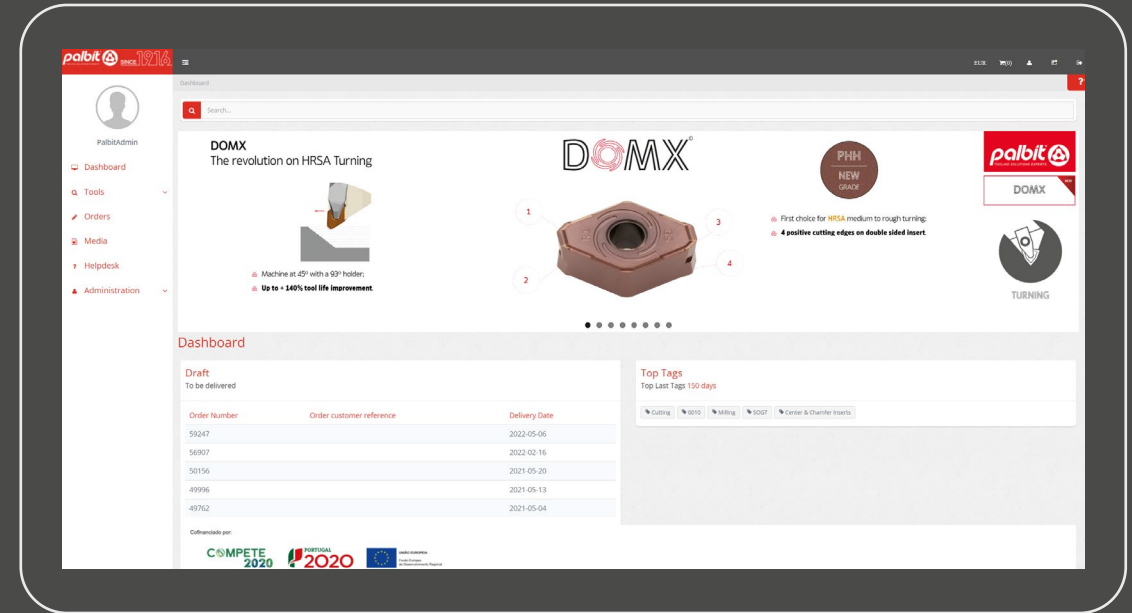

The best for your Business

- **Tangential solutions** (Turning and Milling)
- Multi-application **Milling bodies**
- **Patent Holder**
- New **high feed rate tools concepts** (Milling & Turning)
- One **new product** per day (average)
- **Unlimited possibilities** to develop and manufacture **special products**
- **Large portfolio** of standard products, with over **7.000** references **available on stock**
- **New grades** development

E-Commerce

Anytime, Anywhere

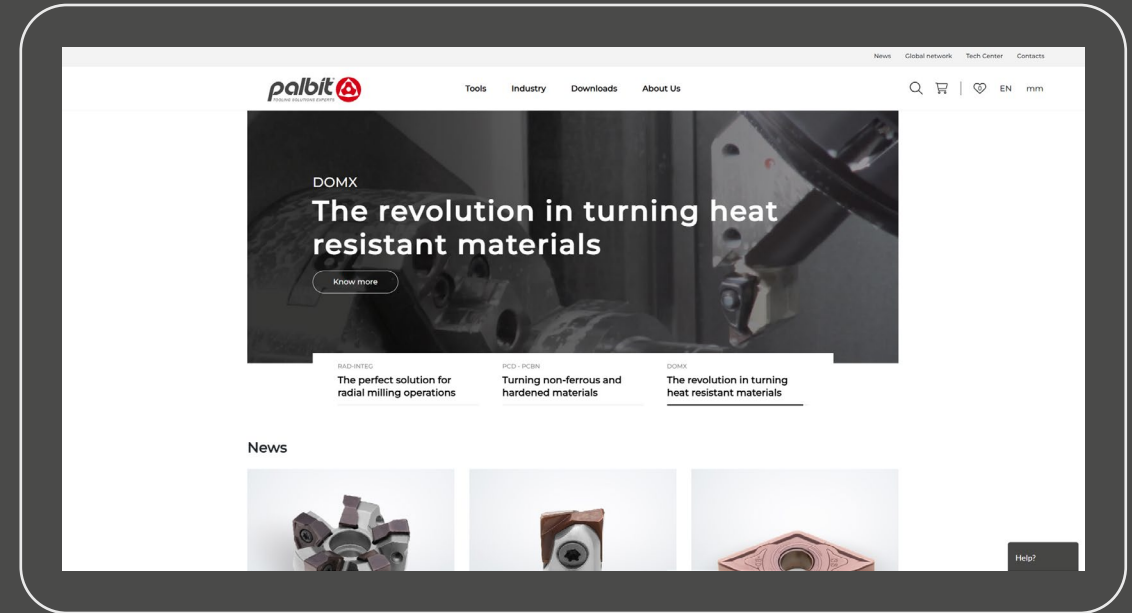

Online ordering available 24-hour per day
and shipments around the globe.
